

Aim of the Lecture

In this course you will learn to apply both microeconomic and macroeconomic theory as well as econometric methods to analyse fundamental questions regarding education and human capital. What are the long-term gains from education for the society and the individual? Why do people invest time, money and other resources in education? How can we measure human capital? How can education be efficiently provided? Can education help to create a more equal society?

The course relies heavily on economic methods. The prerequisites for the course are

- Microeconomics I & II
- Macroeconomics I & II
- Econometrics I & II (Empirische Ökonomie I & II)

Time Schedule (Preliminary)

The first lecture will take place on 19th October 2018 at 2:15 pm in room M110. We will briefly discuss the structure of the lecture and organizational details. All lecture and tutorials take place in lecture room M110. Table 1 provides the preliminary time schedule

TABLE 1—PRELIMINARY TIME SCHEDULE

Date	Time	Topic
19.10.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 1: Introduction —
26.10.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 2: Human Capital & Economic Growth Models Tutorial 1
02.11.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 3: Growth Accounting & Development Accounting Tutorial 2
09.11.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Tutorial 3: Empirical Methods Refresher I Tutorial 4: Empirical Methods Refresher II
16.11.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 4: Macro-Empirical Evidence Tutorial 5
23.11.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 5: An Introduction to the Human Capital Model Tutorial 6
30.11.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 6: The Signaling Model: An Alternative to the Human Capital Framework Tutorial 7
07.12.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 7: The Returns to Education – Empirical Evidence Tutorial 8
14.12.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 8: The Individual Perspective - The Skill Production Function Tutorial 9
21.12.2018	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 9: How Knowledge is Produced - The Education Production Function I Lecture 10: How Knowledge is Produced - The Education Production Function II
11.01.2019	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 11: The Role of Individual Preferences, Beliefs, & Expectations Tutorial 10
18.01.2019	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 12: Behavioral Economics Perspective on Education Tutorial 11
25.01.2019	2:15 pm – 3:45 pm 4:15 pm – 5:45 pm	Lecture 13: Summary / Questions (if necessary)
08.02.2019	tba	Exam

Grading

There will be a written exam, closed book, on February 8 2019.

Organizational Details (Tutorials, Course Materials...)

Lectures and tutorials will be taught in English. Slides related to lectures and tutorials, exercise sheets, literature, and further information will be made available on the moodle platform: → [Moodle course website](https://moodle.lmu.de/course/view.php?id=3881) (<https://moodle.lmu.de/course/view.php?id=3881>). The moodle page is restricted to LMU members. We will announce the course password in the lecture.

There will be no regular office hours. Questions related to lectures and tutorials should first be asked in the discussion boards provided on the moodle course website.

Literature & Textbooks

We rely on different textbooks in the lecture and the tutorials. Chapter 7 in Weil (2016) is strongly related to the first (macro-related) lectures of the course. The book of Lovenheim and Turner (2018) is extensively used in lectures 5–9. It is currently out of stock and not available in the library. We provide copies of relevant chapters on moodle. For the empirical refresher Angrist and Pischke (2009) is a very good text to start with.

Though not directly relevant for the class, Mincer (1974) and Becker (1993) are classical texts related to the economics of education and human capital. More advanced texts for your further career as researcher in related fields are: (Checchi 2006; Borjas 2016; Weil 2016; Angrist and Pischke 2009; Söderbom and Teal 2015).

Further references to relevant papers will be introduced in the lecture.
